

# DERIC PANG

dericp@cs.washington.edu  
homes.cs.washington.edu/~dericp  
github.com/dericp

## SKILLS SUMMARY

---

**Languages:** Python, Java, C, C++, Shell, Scala, HTML & CSS, JavaScript, PHP,  $\text{\LaTeX}$   
**Tech/Tools:** TensorFlow, MXNet, PyTorch, AWS, Git, Ant, Gradle, Kaldi

## EDUCATION

---

**University of Washington, Seattle** Graduating June 2019  
M.S. in Computer Science  
Combined B.S./M.S. Program

**University of Washington, Seattle** Graduating June 2018  
B.S. in Computer Science  
Dean's List every quarter  
Overall GPA: 3.77/4.00

**Swiss Federal Institute of Technology in Zürich (ETH Zürich)** Fall 2016  
University of Washington Computer Science & Engineering Direct Exchange

**Graduate Coursework:** Machine Learning for Big Data, Data Mining, Information Retrieval

**Undergraduate Coursework:** Machine Learning, Natural Language Processing, Visual Computing, Algorithms

## EXPERIENCE

---

**Alexa Machine Learning — Amazon** June 2017 – Sept. 2017  
*Software Development Engineering Intern* Seattle, WA

- Worked on Amazon's internal deep learning framework specialized for automatic speech recognition.

**Programming Languages and Software Engineering Lab** Mar. 2015 – Present  
*Undergraduate Researcher, advised by Michael Ernst, Luke Zettlemoyer, and René Just* University of Washington

- Working on the Tellina project to generate bash commands from natural language.
- Built an automatic bug finder using patch minimization and delta debugging techniques.
- Co-authored *Evaluating & improving fault localization techniques* — accepted to ICSE 2017.

**Marchex** June 2016 – Sept. 2016  
*Software Engineering/Research Intern* Seattle, WA

- Built a speech recognition system using deep learning techniques to transcribe phone calls.
- Trained a neural network based on the Deep Speech 2 architecture.
- Transcribed Australian English with the Kaldi automatic speech recognition toolkit.

**Amazon** Mar. 2016 – June 2016  
*Software Development Engineering Intern* Seattle, WA

- Developed business critical software to validate payment instruments.
- Integrated with AWS technologies such as AWS SWF, Lambda, S3, DynamoDB, SQS, and SNS.

**Machine Learning | Software Design & Implementation** Winter 2016 – Present  
*Teaching Assistant for CSE 446 and CSE 331* University of Washington

- Planned and delivered lectures during weekly recitations.
- Graded and provided feedback for weekly programming projects.
- Met weekly with the lecturing professor to discuss teaching, grading, and course progress.
